BIRTH CHOICE IS EXPANDING

LEARN MORE ABOUT OUR EXCITING PLANS

Our Mission

Our Mission is to extend Christ-like love in a compassionate and responsive manner that values the family and empowers women and their partners to choose life.

Our Vision

Our vision is to reach as many people as possible with truth – the truth about precious preborn children created in God’s image and the truth of the gospel in Christ Jesus. While we can’t reach every person considering abortion with this message, we feel it is our responsibility to try. God has blessed this vision in many ways and as a result we have experienced unprecedented growth. We are now bursting at the seams at our Jackson location and we desperately need additional space.

Everyday Life **AT OUR BUSY JACKSON OFFICE**

Existing Jackson Office

HOW DOES BUILDING THIS ADDITION ACHIEVE THAT VISION?

Over twenty years ago, in 2001, we began construction to double the size of our Jackson office. This was necessary so we could begin offering free medical services in the way of pregnancy testing and ultrasound. In 2009 we did that very same thing at our Gibson County location. In both of those instances, volunteers from several local churches came together, providing most of the labor, while other churches, businesses, and individuals joined hands to fund 90% of the cost of the materials needed. Because the majority of the labor and materials were donated, our general funding was not affected and we were

able to continue our mission of reaching more and more abortion-determined women at both clinics. Because these expansions allowed us to use the technology of ultrasound in both of our clinics, the number of babies saved from abortion has grown exponentially!

Woodland Baptist Church, which is located right next door to our Jackson clinic, just renewed our past 20-year lease of \$1 a year to now extend over the next twenty years for that same amount. This defrayed the past and future cost of 34 years of rental fees, building insurance and maintenance.

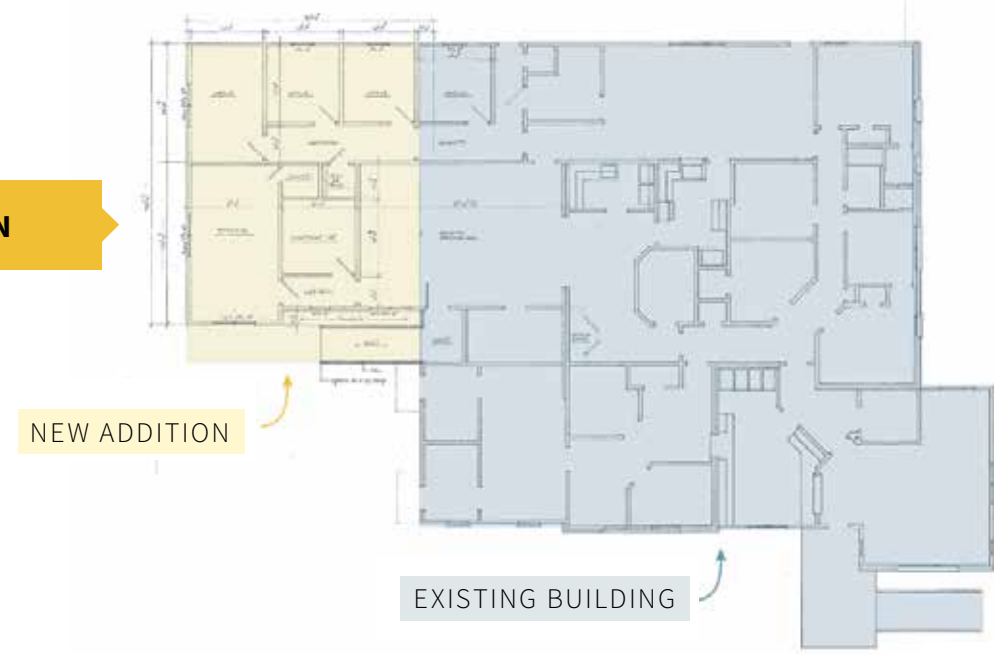

Equally amazing, we have almost this same arrangement with the Gibson Baptist Association as it pertains to our Gibson County clinic. Over the years these agreements have saved us well over one million dollars - what a blessing! Most importantly, these gracious agreements continue to allow us to designate other monetary donations directly into ministering to thousands of clients and their children - past, present, and future - whom God sends to Birth Choice.

We currently have a local contractor who has agreed to officially supervise this building project, along with obtaining the necessary permits. A local designer has agreed to provide all the building and site plans needed for construction. Both of these individuals are donating their services.

Remodel and building addition in 2001. We were blessed with many volunteer crews from local churches who helped make our clinic what it is today.

The Reason We Are Expanding...

Birth Choice has always looked for new and innovative ways to intervene in the lives of preborn children who are destined for abortion. We continue to see increases in the number of children saved, setting a record of over 150 babies saved from abortion in 2021. The forward-thinking goals of our ministry led us to add a Mobile Medical Unit (a third clinic on wheels) in 2020, taking our services to three rural counties. In 2021 we purchased a second mobile unit to reach two additional counties. These two mobile units have not only expanded the areas we are now able to reach, but they have increased our overall effectiveness to save preborn children.

In one sense, our 33 year-old mission has remained the same as we continue to minister God's truth in love to each and every mother and child, day in and day out. In another sense, however, the way we operate in our 4 clinics changes almost on a daily basis. It is our desire to be prepared to do anything and everything that God has called us to do to protect the lives of His preborn children and to spread the gospel.

Last year, our Founder and CEO, Brent Lambert, gave up his office to move into a storage shed located just behind the main office so that we could convert an existing room into a second ultrasound room. Ministry-wide we are now up to five ultrasound machines: two in Jackson, one in Trenton, and one on each of our Mobile Clinics. We also need additional spaces for an additional support room and for our parenting classes. The director of our two mobile units and our men's ministry director are now sharing a small single space. We are definitely bursting at the seams!

EXPANDING OUR VISION

to serve more

Mobile Clinics

In 2020 and 2021 Birth Choice launched a brand new mobile medical ministry that serves five counties and reaches clients in a total of 13 counties around West Tennessee. This has resulted in adding 40 new volunteers and medical staff to minister to a population totaling more than 50,000. Our two Mobile Medical Units with ultrasound right on board have been instrumental in helping the Birth Choice ministry to set a new record. In 2021 we saw more than 150 babies saved from abortion! All of this growth, however, has added to our need for additional administrative and training space for this new facet of our ministry.

Cost

OF BUILDING THIS ADDITION

\$60,000

in materials costs alone. We hope that mission groups and church groups will help us build the addition as in times past, bringing the labor costs down.

Giving

OPPORTUNITIES
