Cora's Story

A few weeks ago, when "Cora" boarded our mobile clinic, she was concerned about who would help her if she had the baby. Her boyfriend, who was unfaithful to her, left after finding out she was pregnant.

Our volunteer advocate and nurse met her with compassion and care that day. They treated her with dignity by giving her factual information about abortion, adoption, and parenting. They shared about our God who loves her, died for her, and wants a relationship with her. They also asked if they could follow up with her and encourage her throughout her pregnancy.

When Cora saw our 12-week fetal model, she cried. Afterward, she had her ultrasound and saw her very active baby! Because Cora was gently and lovingly confronted with truthful and practical information, she chose life for her child.

Tammy's Story

The following story was written by Tammy, one of our advocates, during our first week open in January:

"To see this client's change of heart was such a miracle! She repeatedly said, 'I'm all I have,' and 'I am pro-choice' in the beginning of the appointment. After the nurse left, the client was weepy, so I prayed over her. As we were going through [the information on her options], she was quiet. When I gave her the fetal model, she kept looking at it and saying, '12 weeks? A real baby?' I had her read the card for [the seven-week model] and she said, 'it has a heartbeat? Wow!' The look of wonder on her face was priceless.

"When I asked her where she felt she was on the abortion scale, she shook her head. She said, 'I can't. I feel so much peace just coming here. I don't feel alone anymore. I know I can do this and that [the father of the baby] will be there for me also.' We were both crying. I again told her how much the Lord loves her and this baby and has a good plan for each of them."

When we lovingly share the truth of the gospel and the value of their precious preborn children, accompanied by practical support and resources, almost seven out of every 10 Birth Choice clients who consider abortion change their minds and choose life.

The Fight Continues

The Reality of Abortion

BIRTHCHOICE

The Fight Continues

All elective abortions are illegal in Tennessee! Praise the Lord! However, there are, sadly, many women in West Tennessee who consider abortion. Unplanned pregnancies are not stopping just because abortion is illegal in our state. Many Tennessee women drive three to four hours to Illinois, which has the closest abortion facilities to our area.

The Abortion Pills

There has also been a nationwide increase in women using abortion pills to end their pregnancies. In less than three minutes, a woman can search for abortion pills online, order them, and have them shipped illegally to Tennessee. The abortion stats to the left do not include these "self-managed abortions," only legal abortions.

**There is still much to do to protect the preborn from abortion.
Will you pray how the Lord might use you?**

Volunteer Opportunities

Volunteer Client Advocates

- We need godly women we can train to minister to clients once a week at each of our clinic and mobile clinic locations. We have volunteer trainings every May and October.

Volunteer Medical Personnel

- We need more registered nurses or ultrasound sonographers whom we can train to perform pregnancy tests and ultrasounds at each location.

Prayer Warriors

- Learn more about being a prayer warrior by emailing tiffany@birthchoice.us
